

7/20/22: In case you didn't know there is a new COVID-19 variant – BA.5. This variant's main symptom is a sore throat. We remind everyone that if you should show any COVID-19 symptoms please let us know. Pennsylvania right now has a positivity rate of 15.3% and Schuylkill County has a rate of 13.0%. One point to note is that these rates do NOT account for any positive at-home test results. Any questions, please call. If you would like to opt out of messages, please call 570-385-2818.
